

## Updates to your prescription benefits

Effective July 1, 2017

Within the Prescription Drug List (PDL), medications are grouped by tier. The tier indicates the amount you pay when you fill a prescription. Please reference this chart as you review the following updates. Most options listed are available in Tier 1, your lowest cost option.

 <p><b>Tier 1</b> Your lowest-cost medications</p>	 <p><b>Tier 2</b> Your mid-range cost medications</p>	 <p><b>Tier 3</b> Your highest-cost medications</p>
---	--	--

**If your medication is listed below**, you may continue taking it, but you may pay a higher cost. We encourage you to discuss the listed lower-cost option(s) that may also treat your condition with your doctor. Most options listed are available in Tier 1, your lowest-cost tier, and may have a clinical program in place.

### Medications with new benefit coverage

The following medications were previously not covered under most benefit plans and are now eligible for coverage.

Therapeutic Use	Medication Name	Tier Placement
<b>ADHD</b>	methylphenidate extended-release (generic Metadate CD)	2
	methylphenidate extended-release (generic Ritalin LA)	2
<b>Cholesterol/Lipid Lowering</b>	ezetimibe tablet (generic Zetia)	3
<b>COPD</b>	Bevespi	2
<b>Diabetes</b>	Adlyxin	3
	Soliqua	2
